

Floodlight Usage and Token Purchase Guidance

Usage

The floodlights are available for use by any member of the Club when playing or practising tennis whenever there is poor daylight or at night up until the hour of 9.30pm Monday to Friday and 7.00pm Saturday and Sunday, after which usage is prohibited by the FODDC Planning Permission granted. There is a dispensation for League Matches only to enable play to continue to 10.00pm on weekdays. No other use of the floodlights is permitted after these hours.

Charges

Individual Tokens	£4.00 each
Social Tennis	£2.00 per player per evening session
Evening Home League Matches	£24.00 per home match (£6/player)

Payment

Individuals using the courts and requiring use of the floodlights must use a floodlight token and each token allows 1 hour of play per court. Insert your token into the meter box for the court you are playing on to activate the lights.

Social Tennis evenings: During the months of October to April players are requested to make a nominal payment, as above, direct to the Club's Bank account to cover the cost of the use of the Floodlights. Bulk payments are accepted.

Evening Home League Matches: A charge is made for the participation in the LTA league matches and a portion of this charge covers the use of the floodlights when playing at home. Team Captains are responsible for collecting the charge and paying the monies into the Club's Bank account after every Home Match. The Team Captain is responsible for operating the lights and ensuring they are turned off after the end of the match.

These charges ensure that the cost of running the floodlights is fully self-funded.

Buying Lighting Tokens and paying for Floodlight Usage

Please order your tokens using this link: [Token Order Form](#)

Please pay via bank transfer to:

Account	Redmarley Tennis Club
Account number	71627554
Sort code	40-31-09

Collecting Your Tokens

Tokens are to be collected from the Token safes in the Pavilion. A code and safe number will be given to you upon purchase and once the code has been issued, you are asked to collect your Tokens promptly.

The usage of the floodlights is closely monitored, and you are therefore politely asked to ensure you follow the above usage and payment options to ensure ease of access and operation of the floodlights for all.
